The best Breakout game you can play.. Way more tedious than an ARPG has a right to be. I'm not talking about endgame content, I'm talking about basic campaign gameplay. There are good recipes for ARPGs, and if you follow them you'll make a fun game. You can even make small changes and substitutions and still have a good game. When you try to write your own recipe you'll end up with a sh!t sandwich. Thats kind of what happened here. A sh!t sandwich dressed up to look like a beloved universe.. This game is super fun! I'm enjoying it quite a bit. The combat's fun, even though I'm not the best at beat-em-up's. I also love the game's humor! Take's from the show super well. Characters are fun, gameplay is swell, and the music is also sweet! I'd say give it a go!. Drop alive is a cute fun game.... Having played this game in early access for quite some time, I can admit the only thing that brought me to it was the Brevik's themselves. Being a life long gamer of D2 and 3k hours + in Marvel Heroes it is safe to say that I enjoy his products. **\*\*ALERT\*\*** I typically DO NOT enjoy these style games. They don't typically attract me so I bought this game with the sole intention of just helping them. **HOWEVER**, after playing the game in descent mode I found myself having a ton of fun. I made multiple classes, Bard being my favorite. I've been waiting for official release so I could see it at it's current best. If this game was able to draw me in, someone who traditionally doesn't like these games, that should say how fun and exciting the game can be. The Brevik's stream the game all the time and David is constantly updating the game with patches and keeping a heavy involvement with the community. If you took yourself and a significant other to the movies, it would cost you \$20 which last 2-3 hrs. Spend 20\$ and help support the Brevik's and have many many hours of fun in this AWESOME loot explosion, boss killing, mob destroying, crafting extravaganza and oh shoot, manage your inventory!! A+ product!. This DLC grants you access to a UAV that will find you all the samples on a map once it is fully upgraded. If you want to quickly upgrade your weapons and gear this is a must have pack.

How do I install???. Awesome game with a chilling message to tell regarding survival. The game will leave you with an understanding that there are really no black and white when it comes to survival. Do not buy. I dont think multiplayer even works. Not many people even play it and no AI's that you can go against. The game is as simple, cheap, and dumb as the screenshots make it look. Literally took less than half an hour to complete.

Don't get it, not even on sale. Refunded immediately after completing.
